

Hospice and Palliative Care

Dua Old Age Caring Institution

Providing compassionate, dignified end-of-life care and comfort to seniors across Delhi NCR with expert medical support and heartfelt understanding.

Why Hospice and Palliative Care Matter in India

Rapidly Growing Elderly Population

India's elderly population is expanding rapidly; by 2050, one in five Indians will be over 60 years of age, creating unprecedented demand for specialized care.

Critical Care Needs

12.2% of older adults need supportive and palliative care, especially those battling chronic illnesses like cancer, stroke, heart disease, and respiratory conditions.

Focus on Comfort and Dignity

Palliative care prioritizes comfort, pain relief, symptom management, and emotional-spiritual support—ensuring quality of life rather than pursuing cure at all costs.

What Sets Dua Old Age Caring Institution Apart

01

Expert Geriatric Medical Team

Dedicated specialists providing 24/7 supervision with personalized care plans tailored to each resident's unique medical and emotional needs.

02

Comprehensive Service Range

Inpatient care, home-based support, respite care for families, end-of-life comfort measures, and compassionate bereavement counselling.

03

Core Values: DUA

Dignity, Understanding, Assurance—ensuring every senior receives respectful treatment, empathetic listening, and reliable, trustworthy support.

Holistic Care Tailored to Every Senior

At Dua Old Age Caring Institution, we believe in treating the whole person—body, mind, and spirit—with services designed to enhance comfort and preserve dignity.

Pain and Symptom Management

Advanced medical interventions and compassionate techniques to ensure comfort, minimize suffering, and improve quality of life.

Emotional and Psychological Support

Professional counselling services for residents and their families, helping navigate difficult emotions and life transitions with empathy.

Spiritual Care

Respecting individual beliefs, cultural values, and religious practices, providing spiritual guidance and comfort during vulnerable moments.

Daily Living Assistance

Compassionate help with grooming, dressing, mobility, medication reminders, nutritious meals, and all activities of daily living.
