

Flexible Conduit Accessories by CabexIndia

Secure, Reliable, Industrial-Grade Solutions

Made with GAMMA

Why Choose CabexIndia Accessories?

Trusted Manufacturing

Specialized in explosion-proof, flameproof, and waterproof cable glands and accessories designed for maximum safety

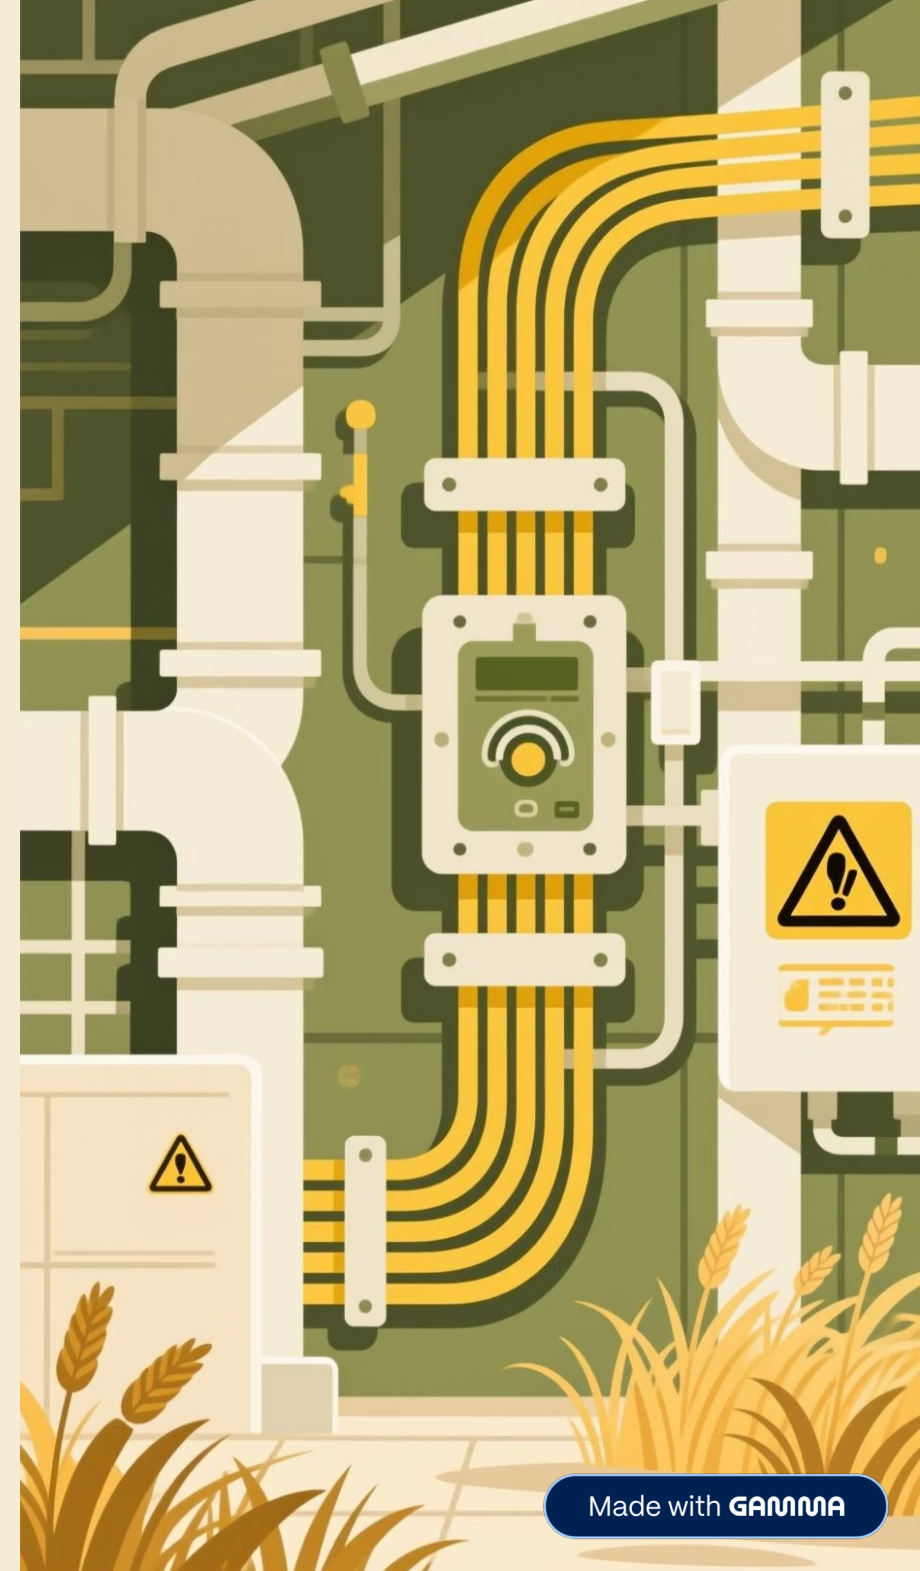

Industrial Engineering

Products engineered specifically for harsh industrial environments including construction sites, heavy machinery, and hazardous areas

Certified Quality

Certified to international standards including BS EN 62444 and IEC 62444, ensuring uncompromising safety and long-term durability

Key Cable Gland Accessories & Their Functions

Precision-engineered components for complete cable entry protection and performance

Locknuts & Serrated Washers

Secure glands firmly in place, preventing loosening under continuous vibration and mechanical stress

Sealing Rings & O-Rings

Provide exceptional protection against dust, moisture, and water ingress with IP68 rated performance

Reducers & Adaptors

Enable seamless thread size conversions for flexible installation across different equipment specifications

Earth Tags

Ensure proper grounding and critical electrical safety compliance in metallic enclosures and junction boxes

Real-World Impact: Heavy-Duty & Hazardous Applications

Protection Where It Matters Most

Our cable gland accessories protect critical cable entries from dust, moisture, vibration, and physical strain across demanding construction and industrial sites worldwide.

Precision-engineered components enhance operational safety and significantly extend equipment longevity, reducing maintenance costs and downtime.

Global Custom Solutions

Custom solutions available to meet specific client requirements across international markets including Europe, UK, Australia, and the Middle East.

CabexIndia: Your Partner in Electrical Safety & Performance

Cutting-Edge Technology

Combining advanced manufacturing technology with precision engineering expertise to deliver superior electrical safety solutions

Extensive Product Range

Comprehensive selection available in brass, stainless steel, aluminum, and custom finishes to meet every application requirement

Unwavering Commitment

Dedicated to quality excellence, reliability, and on-time delivery for every project, regardless of scale or complexity
