

# Earthing Accessories by Cabex India

Ensuring electrical safety and reliable grounding solutions for every application

# Why Earthing Accessories Matter

## Low-Resistance Path

Provides a safe route to discharge fault currents directly into the earth, preventing dangerous voltage buildup

## Protection Assured

Safeguards people and equipment from electrical hazards, shocks, and potential fire risks

## Universal Application

Essential across residential, commercial, industrial, and power generation facilities

Proper earthing is not optional—it's a fundamental requirement for electrical system safety and regulatory compliance in any modern installation.

# Key Earthing Products from Cabex India

1

## Earthing Cables

Low-impedance conductors available in various sizes, specifically engineered for efficient fault current flow and minimal resistance

2

## Grounding Electrodes

High-quality copper rods, plates, and pipes designed for effective earth contact and long-lasting performance in diverse soil conditions

3

## Earth Bars

Precision-engineered copper bars with corrosion-proof PVC bases, available in multiple lengths to serve as common earth points for system connections

4

## Clamps & Connectors

Robust bonding components ensuring secure, reliable connections that maintain system integrity throughout the installation's lifetime

# Technical Excellence & Standards

## Premium Materials

- Hard drawn copper bars (50×6 mm) for superior conductivity
- Brass earth tags with excellent corrosion resistance
- Stainless steel options for harsh environments
- High mechanical strength components

## Rigorous Compliance

- BS 7430 & BS EN 62561-1 standards
- IS & IEC international compliance
- Tested tightening torque (20 Nm)
- Comprehensive quality assurance

Cabex India offers custom solutions tailored to meet specific project requirements, ensuring optimal performance for unique installation challenges.

# Why Choose Cabex India?

## Trusted Manufacturing

Comprehensive product range backed by years of industry expertise and advanced manufacturing capabilities

## Quality Commitment

Unwavering dedication to durability, reliability, and full compliance with international industry standards

## Expert Support

Professional technical guidance for product selection, installation best practices, and ongoing support

## Customer-Centric Service

Timely delivery, responsive communication, and dedicated support for all your earthing requirements

- Partner with Cabex India for earthing solutions that prioritise safety, performance, and long-term reliability in every installation.
