

Brass Garden Fittings

Durability Meets Design

Precision-engineered solid brass fittings built to last — where premium performance and timeless style converge in your garden.

Made with **GAMMA**

The Problem: Flimsy, Corroding Garden Fixtures

Weak Materials

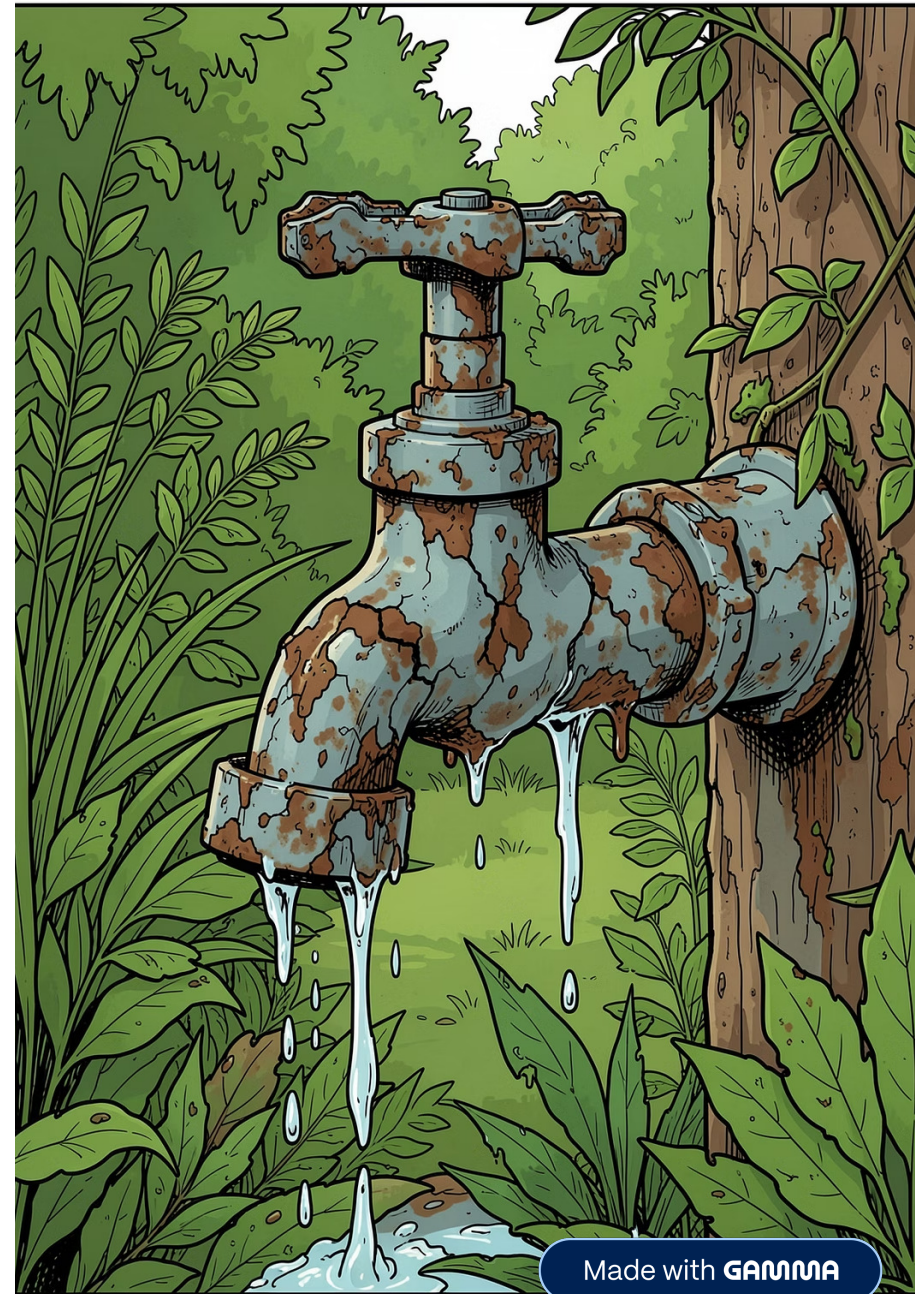

Most garden taps and fittings are made from plastic or low-grade metals — inherently fragile and short-lived.

Prone to Failure

UV damage, cracking, and corrosion lead to persistent leaks and costly, frequent replacements.

Poor Aesthetics

Deteriorating fixtures detract from your garden's beauty, undermining the overall outdoor aesthetic.

The Solution: Solid Brass Garden Fittings

Unmatched Durability

Precision-machined from solid brass (ASTM B124, Grade C37700) for superior strength and heat resistance.

Corrosion Resistance

Polished brass finish withstands harsh weather, resisting rust and degradation for decades of reliable use.

Versatile Connectivity

Standard 3/4" BSP and GHT threads ensure seamless compatibility with hoses, nozzles, and hydrants.

Key Features & Benefits

Quick Connect Systems

Attach and detach hoses with Hozelock, Gardena, or snap-on fittings in seconds. *(e.g., Solid Brass Garden Bib Barrel Tap)*

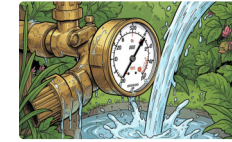

Integrated Hose Adapters

Remove the adapter for direct connection of washing machines or pressure washers. *(e.g., Emirplast Brass Garden Tap)*

Timeless Aesthetic

Polished brass delivers an enduring, classic look that enhances any garden setting. *(e.g., Proper Copper Design Brass Pillar Garden Tap)*

Reliable Performance

Rated up to **150 psi at 70°F**, ensuring a secure, leak-free seal for all your watering needs.

Invest in Your Garden's Future

Brass garden fittings are more than an upgrade — they're a long-term investment in quality, beauty, and peace of mind.

Premium Quality

Solid brass construction built to outlast any plastic or cheap metal alternative.

Timeless Style

A polished finish that grows more characterful with age, never tacky or worn.

Upgrade Today

Transform your outdoor space with fittings designed to perform beautifully for years.
